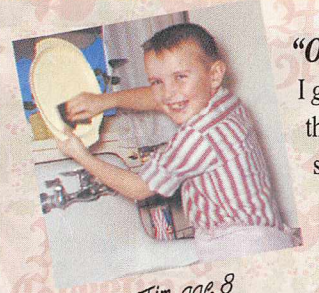
Feel Like A Kid Again!



Tim, age 8

"Oh boy, oh boy! I got it! I *got* it! HOT DOG! Wait till the gang sees this brand new shiny P5-100XL machine from Gateway 2000. Jumping gigabytes! I feel just like a kid again! I'm even more excited than when I got my Stream Line Electric train set back in 1958. I remember my brother Butch and I had a rootin' shootin' time making that train whiz around the track at lightening speeds. It was *the* most. But it can't compare to the powerhouse 100MHz Pentium processor-based system before me. It even has a quad-speed CD-ROM! I just wish Butch were here to see it. *(Hey Butch, na na na na na — I got the most awesome computer in the world this year! How's the box of orange wool socks from Aunt Doris?)* I think I'll invite Butch over to show off my new P5-100XL. We can watch full-motion video and hear stereo sound that rivals any home hi-fi with the ACS-31 speakers with subwoofer. I hear Gateway's multimedia features and software applications are more entertaining than watching Uncle Miltie. And I know if I ever have any questions about my new computer, the swell people at Gateway 2000 will always be there to help. Thanks Gateway, this has been the best holiday ever in the whole wide world!"

Just in time for the holidays, Gateway 2000® introduces the power-hungry user's dream machine — the P5-100XL. Make the day merry with a 100MHz Pentium™ processor, 4X CD-ROM, and Gateway's new Vivitron™ color monitor using Sony® Trinitron® tube technology. We can't candy coat it...this is quite simply the best computer you can get today!

100MHz Power Train

How could it be faster? It can't! The new Intel® 100MHz Pentium processor in Gateway 2000's P5-100XL is the fastest processor available today that still lets you run the most popular software applications. Imagine having everything on your computer running at full throttle! Previously only found in high-end file servers, now *you* can have the unsurpassed power and speed of a 100MHz processor right on your desk.

New 4X "Quad-Speed" CD-ROM Drive

Twice the speed of a double-speed CD-ROM! You'll be way ahead of the game with the fastest CD-ROM technology available today on your P5-100XL Pentium processor-based machine. Gateway's 4X "quad-speed" CD-ROM and 100MHz of computing power transform your system into a runaway power train. And with a throughput of 600KB per second, the quad-speed CD-ROM is the *only* way you can have true full-screen, full-motion video today. All today's and tomorrow's software applications fly, and video and animation are smoother and cleaner. Gateway's quad-speed CD-ROM includes a motorized tray and is ATAPI compliant, something you'll need when Microsoft® Windows '95 comes along.

Gateway's New Vivitron Color Monitors!

For decades, Sony Trinitron technology has been the choice for millions who insist on only the *very* best. Now the best computer system in the world is paired with the best screen display in the world. Introducing Gateway 2000's new Vivitron color monitors. Using Sony Trinitron tube technology, these monitors give you the highest quality screen images available. Our 17-inch Vivitron monitor, standard with the P5-100XL, gives you brighter, richer, and crisper colors, a sharper focus and clearer image. With a .26 fine pitch, you'll also get an incredibly high screen definition. The new Vivitron monitor is standard on all Gateway systems that include a 15-inch or 17-inch monitor.

Microsoft Office Professional

This collection of Microsoft's most popular software applications is pre-installed on your Gateway P5-100XL. You get Microsoft Word, Excel, PowerPoint® presentation graphics program, Access® database, and Bookshelf.® Bookshelf includes seven best-selling reference books that include *The American Heritage Dictionary, The Concise Columbia Encyclopedia,* and *The World Alamanac and Book of Facts.*

GATEWAY2000

800-846-2063

Ida, age 7

"I can't stand secrets. My husband and kids always hide my presents because they know I'll try to sneak a peek if I can. This year was no exception. I waited until they were all asleep, then padded down the hallway, crept down the stairs, very quietly...*yikes*...remember the second step creaks! And...oh, wow, HOORAY! It's a Gateway 2000 P5-75 Family PC! I didn't care if the whole family heard me. Did I feel like a kid again? You bet! Suddenly I was back in circa 1965, when a tip-toe trip to the tree meant first having to free Fluffy's claws from the gold shag carpeting. Then while reaching for my Howdy Doody slippers, I was suddenly rendered blind by the glare of the silver tree, and I went crashing through the aluminum branches and piles of presents! I woke up the whole house that year. *This* year I soared through a billion applications in mere seconds with the 75MHz Pentium processor in that Gateway machine. I was sure the vivid colors of the new 15-inch Vivitron monitor were going to jump right out of the screen! My husband says the friendly salespeople at Gateway made sure we got the computer just right for us. The entire family can join in on my fun, because this powerful multimedia system has something for all the 'kids' in this house!"

Your family's days and nights will be merry and bright with a P5-75 Family PC™ from Gateway 2000.®

Cruising at 75MHz

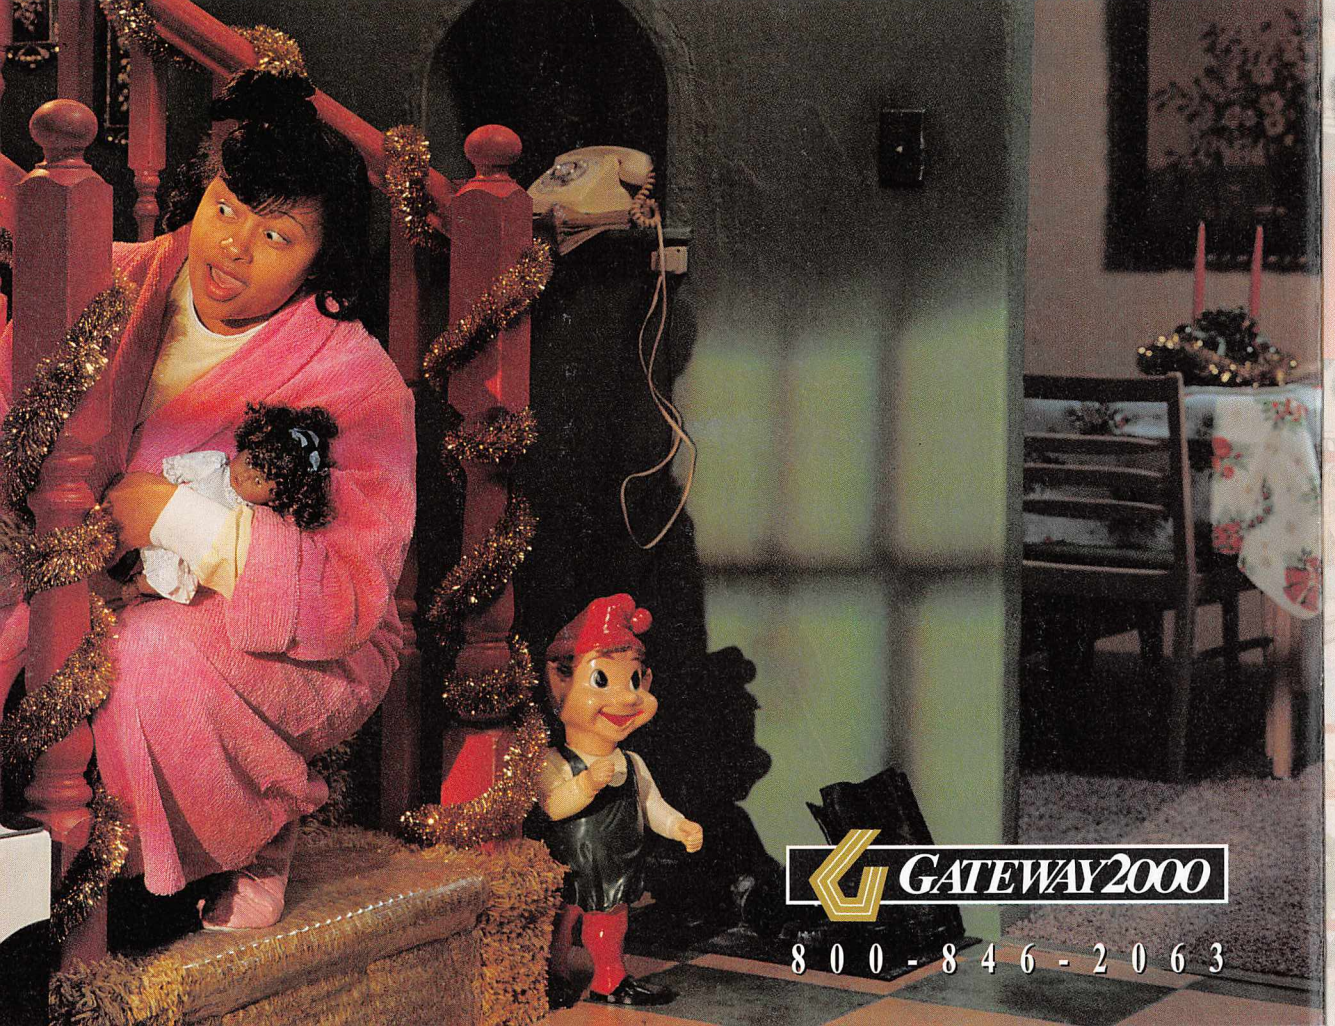
This full-featured multimedia Family PC is an investment in your family's future with a super-charged 75MHz Pentium™ processor, and all the included software applications in our Home Bundle run faster than ever!

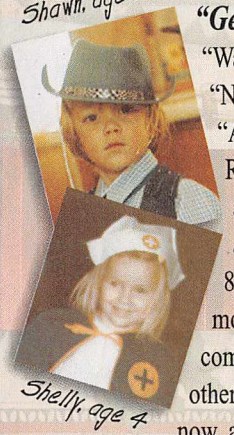
Family PC Power

As your family grows and changes, this Pentium processor-based Family PC will always be in style. Power users are right at home with Intel®'s 75MHz Pentium processor and 730MB hard drive. For multimedia enthusiasts, a PCI local bus graphics card, double-speed CD-ROM, 16-bit sound card and Altec Lansing speakers are the coolest. And a TelePath™ fax/modem keeps everyone connected with the on-line universe. The Pentium processor lets you take full advantage of all these features and the many new generations of software applications. For tomorrow's multimedia superhighway, the P5-75 Family PC is your ticket to ride.

A Bright New Outlook!

Your P5-75 Family PC also includes Gateway 2000's new 15-inch Vivitron™ color monitor. All your colorful images will now be richer and brighter with Sony®'s Trinitron® tube technology built into these new monitors.





"Get outta my way!"

"Watch out Shelly, you doorknob! It's mine!"

"No, Shawn, it's mine!"

"Ah, it's just like being kids again, Shelly. Remember 1977? The presents, the fun, and Dad's dumb leisure suits? He'd always warn us, 'Kids watch out for that 8-track player, and don't touch your mother's shrine to Elvis!' We were *so* competitive, always fighting over each other's gifts. I'm glad we're all grown up now, and we get along so well, especially since you finally stopped being such a spoiled brat."

"Whatever, Shawn, I'm still Mom's favorite, you buttface."

"Well, I guess Gateway 2000's ColorBook and Liberty portable PCs have brought out the little hellions in us again. But we just can't help fighting over them!"

"Shawn's in awe of the Liberty's incredible infrared wireless transfer capabilities — and a bunch of other HUGE features!"

"And Shelly can hardly live with herself because she can't believe the great values on all ColorBook models."

"Gosh Shawn, isn't it nice to have Gateway 2000 here to make us feel like kids again?"

"Yeah, it sure is. In fact, Mom thought now would be a good time to tell you that we really adopted you from Martians."

Liberty™ DX4-100 Best Buy

Liberate yourself! Introducing the new Gateway 2000® Liberty color portable PC! This 4.2-pound computer is positively loaded with almost-unheard-of features, including a 10.4-inch color display and infrared technology allowing for wireless file transfer. Rusty, Lily, Mary and John

"The warmth and fun of the holiday season is timeless. I guess with today's ultra-busy lifestyles, it's even more important to make memories and build traditions with family.

Well, as long as you can stand sitting through the kids' 75 verses of 'Jingle Bells' and Uncle Ricky always stopping by to borrow the nutcracker. But years from now, my wife Lily and I will sit down to watch our holiday videos, and after we fast-foward past the cat eating tinsel off the tree, we'll remember how excited little John and Mary were to open that huge cow-spotted box from Gateway 2000. For just $1,899, Gateway gave us a full-featured multimedia system. And with all the great software titles pre-installed on our 4DX2-66 Family PC, Lily and I started feeling like kids too! Not enough to eat a whole tin of peanut brittle or anything, but we sure stayed up late that night exploring Microsoft Golf and Cinemania '95. Our Family PC has opened up whole new worlds for John and Mary, too. They've been entranced by MS Fine Artist, and Encarta multimedia encyclopedia. Lily and I are happy knowing that the fun and learning they experience with Gateway's 4DX2-66 Family PC will last them a lifetime."

The Gateway 2000® 4DX2-66 Family PC™ brings all the rewards of a fully featured multimedia system into your home at a price that defines "family values." Our Family PCs start from $1,499 for the 4DX2-50 model and include a local bus graphics card, double-speed CD-ROM, 16-bit sound card and Altec Lansing speakers for a quality audio system. Listen to your music CDs, experience all the sights and sounds of the included multimedia software, and connect with people from all over the world through the standard fax/modem, including communications and on-line software.

A Cornucopia of Software!

An incomparable array of software is included with all Gateway 2000 systems — the most you'll get for your money...anywhere. All Gateway 486 and Pentium processor-based desktops are pre-installed with Microsoft® DOS® 6.22, Windows™ for Workgroups 3.11, and *now* Microsoft Money.

The Incomparable Home Bundle from Gateway

All Gateway Family PC configurations include our Home Bundle. This incredible collection of Microsoft software applications has literally everything your family needs to work, play and learn at home. You'll get MS Works, Encarta '95, Money, Cinemania '95, Golf and Fine Artist.

Microsoft Works 3.0 for Windows Multimedia Edition

You'll never need another software package for your home office. This program combines: a word processor, spreadsheet with graphing, database, electronic communications, financial analysis, charting and illustration.

Microsoft Encarta '95 Multimedia Encyclopedia

Learning is an adventure with text, images, animations and sounds that work together to create a fascinating universe of knowledge. Over 25,000 articles, 17,000 multimedia elements and the complete text of Funk and Wagnall's New Encyclopedia are included.

Microsoft Money 3.0

Now every Gateway desktop system includes Microsoft Money, your personal financial wizard that'll help you take control of your finances and plan for the future.

Microsoft Cinemania® '95

Explore the magic behind the movies with hundreds of reviews, biographies, photos and sound clips.

Microsoft Multimedia Golf

Traverse the wonder of Torrey Pines, consult a golf pro, and play a game of golf any way you please. You'll experience real sounds of chirping birds, swinging clubs and gurlgling water.

Microsoft Fine Artist

Kids can create animated pictures and projects like posters and comic strips, and hear dozens of wacky sounds!
